

Permit Type: MECHANICAL

Permit Sub-Type: COMMERCIAL STAND ALONE

You are applying for a Mechanical-COMMERCIAL STAND ALONE permit.

Definition: Not part of a larger project (e.g., the only work is adding RTU's, air conditioners, boilers, furnaces). Per the Colorado Plumbing Code, which is composed of the IPC and plumbing sections of the IRC, ref. 12-58-102 (5)(a), water heaters can only be replaced or installed by a licensed plumber.

Submittal Requirements:

- Applicant name, phone number, email
- Contractor (must be a licensed contractor)
- Description of project
- Valuation (contract value)

*Electrical permit is required in addition to work for RTU's, air conditioners, or adding a new boiler that is not a replacement.

Applicable Code:

2012 International Mechanical Code

2012 International Fuel Gas Code

Revised 2/26/2018
