6. Agenda item: Presentation to Council and Future of NGAC

Overview:

- November 10, 2020 Council Study Session
 - When the committee was formed, it was with the idea that it would be reevaluated this December.
 - There is a council meeting 11/10
 - Everyone is invited to come, please let Josh know if you are able to make it
- Littleton Residency Requirement
 - o Right now the charter says you can live, work, or go to school within the city of Littleton.
 - Right now, only the transportation mobility committee has this element.
 - Alyssa: I do not agree with this. I do not live in Littleton proper, but I consider myself part of Littleton.
 As someone who works for a large business within the city limits. This would eliminate people who don't live in the city and are impacted by these decisions.
 - Josh: Some context, as we see who has been most involved, it those who have been in the city. It is
 easier to verify an address, vs where someone might work.
 - o Iftin: this would bring us more in line with the rest of the city committees
 - o Ashley: will this solve the problem?
 - o Iftin: we have seen involvement in the committee lacking by those who aren't
 - Charlee: seconds Ashley's question
 - Kit: You may not be solving the problem you're trying to solve with the solution brought forward. This is a small sample size we are pulling from. Could this be better addressed though the interview process?
 - Alyssa: Agreeing with Kit, this is an interview process issue. Some of the frustration this year could be related to other topics vs commitment to the city.
 - o Kit: Are we talking around something?
 - Josh: We had two members who did not live in the city, but they were very self-serving in their motives
 - Lydia: Along with the interview process, can we take it on a case by case basis. There should be consequences for people who do not show up.
 - Iftin: if you miss more than 3 meetings, you will no longer be on the committee.
 - o Pam: during the interview process, we asked every person if coming to the meetings was a problem. If absences are consistent then we loose that consistency. It is not fair to the people who didn't accept
 - Charlee: at least 50% of people who don't live in Littleton are here tonight. What was the purpose of having people the work requirements
 - Ryan: people are committed until they are not. Demographics have very little to do with this. Life happens, things change
 - It was created for live and work because we wanted to be inclusive. It was to encompass as many as possible.
 - I have faith in every applicant until they are not committed. There is no way to tell at the beginning who will be committed or not.
 - This does not need to be decided tonight. The importance of next Tuesday is to not allow us to sunset.
 - Pam: it does need to be decided because of the county clerk's deadline of Dec 1 for recruitment
 - I did let the mayor know you may want to bring this up.

- Kit: Over the last two meetings we have spent a lot of time talking about the board and how to run
 and function. This is impacting my enthusiasm and involvement more than anything else. We are
 spending a lot of time talking about this, instead of what we are really here for.
- Member Ottersberg moves that we do not change the membership requirements. Seconded by Member Campbell.
 - o 7 in favor
 - o 2 against
 - The motion passes.
- 2021 Membership Recruitment
 - Recruitment for our committee will be tied into the main recruitment for all of the boards and commissions
 - Opens in January
 - Interviews February
 - Voted on in March
 - First meeting in April
 - In the past we have done other types of recruitment
 - Flyer to schools, business, etc
 - This is part of the work plan moving forward

7. Agenda item: Micro-mobility in Littleton

Overview:

- Pros and Cons continuation of October conversation
 - o Iftin: this is a piece that seems to be interesting to council
 - o Keith Reester is interested in learning more about our input as well.
 - o Pros:
 - Charlee: Helps to save the last mile problem around public transit
 - Iftin: city could address parking issues through code
 - Charlee: Causes people to think differently about transportation
 - Iftin: it is a green method of transportation
 - Iftin: could alleviate some of the parking frustrations
 - Cons:
 - Charlee: Safety issue, is the public health risk worth it
 - Faith: concerned about people leaving the scooters around
 - Iftin: it can be nuisance and a health risk for tripping
 - Josh: in order charge them, people can get competitive to collect the scooters to charge them
 - Lydia: Where does the liability fall for Littleton
 - Ashley: it seems like a lot of the issues live with companies who just dumped them. If it is in conjunction with the city, can we mitigate these issues
 - Iftin: positive or negative either way. There needs to be policies in place
 - o Josh: Does South Suburban have a take on microbility? What is Englewood's take?
 - Charlee: I want to see studies on geofencing. Also, what have other cities found?
 - o Josh: for Fort Collins, they have bike lanes and Littleton does not have this.
 - o Ashley: do we have the infrastructure to support his
 - Alyssa: there are some people who don't want to walk between the light rail to the center of Aspen Grove.
 - This was a lot of elderly folks interested in this
 - As a young person though, I would use this
 - o Iftin: How successful were the pedicabs for weekends on main?
 - Ryan/Pam: there were deemed as not viable.
 - o Are there concerns around once you let one in, do you have to let them all in,
 - Ashley: Is there a fiscal benefit to the city?
 - Ryan: will be really minimal
 - o Iftin: Is there any cost to the city?
- Next Steps

- Iftin to compile a list of questions
- Iftin to send out the work plan
 - We started the conversation in October
 - February to come back with a finished product we can present to council and public works.
- Does anyone want to take this issue up?
 - Research what has been done well in other cities
 - Develop recommendations
- o By December Meeting
 - Address questions to these answers
 - Policies of neighbors: Josh + Carson
 - Cities success stories + Geofencing: Charlee + Lydia
 - Cities where it doesn't work: Alyssa + Faith
 - Public Health perspective: Abbie + Kit
 - Policy specific Options (Parking, application process): Iftin + Ashley
- Timeline
 - December: present back with answers
 - January: draft report
 - o February: present to council
