Corrected Sewer Billing – Commercial Customers

Finance Department – City of Littleton

Due to a billing system error, approximately 650 commercial sewer customers received an incorrect utility bill in early July. The billing was based on the 2012 water consumption and should have been based on 2013 water consumption as per the city code. The corrected bills will be mailed by July 25, 2014. For those who did not receive a corrected bill, your water consumption did not change from 2012 to 2013.

Business customers who have not paid their bill should wait until the new bill arrives in the mail. For those who have already paid their bill, they may pay the difference or call the City of Littleton Utility Division Supervisor, Heather Morales, at 303-795-3776 to answer further questions. In the case that a corrected balance is lower than the original balance, the city will apply the credit balance to next year's billing. A refund of this overpayment can be obtained by calling Heather Morales and the difference will be repaid.

The utility division staff apologizes for any inconvenience this causes commercial customers and is making sure this problem is prevented from reoccurrence.
